RiverTower

Perhaps the most famous building in Memphis, RiverTower converted the building into luxury condominiums. Designed to be a primary second home, we positioned the company as an alternative to the three most popular second homes for Memphians... Pickwick, Destin and Horseshoe Lake.

*Downtown's
looking up.*

Downtown Memphis is the place to be, and no place commands the city like the RiverTower condos at the crest of Riverside Drive. It's the only high-rise with direct access to the Mississippi River and Riverwalk. Fantastic views of the city and the river. The very latest in amenities. And a heritage like no other high-rise in Memphis. Check out our variety of 1, 2, and 3 bedroom floorplans starting from the 150's. You'll see why the most exciting way to live downtown is overlooking it all.
